

# Girgarre Solar Farm – Monthly Project Update

**February 2024**

## **Construction Update**

Construction works onsite at the Girgarre Solar Farm are progressing well. Piling, which forms part of the mounting structure has been completed. Construction of foundations for power stations and substation are continuing, as well as the electrical cable installation. Additionally, the solar PV module installation has commenced and will continue over the next few months.

Light and heavy vehicles continue to transit Morrissey Road, Watson Road, Winter Road and Mason Road as goods and personnel are transported to site.

During the upcoming weeks, Heavy Rigid trucks with containers of solar PV modules will continue to transit to and from site on the Girgarre-Rushworth Road (C348) and the Midland Highway (A300).

## **Creating Shared Value**

Enel Green Power Australia is committed to a Creating Shared Value (CSV) approach during the construction and operation of the Project Through consultation undertaken with the local community in the last few months, EGPA has identified opportunities of benefit sharing initiatives that will come to execution and fruition in the upcoming months. EGPA is also committed to local sourcing throughout the Project's operational and construction phases, where feasible. It is expected that the project will create significant local employment and supply opportunities during construction.
