

Girgarre Solar Farm – Monthly Project Update

December 2023

Construction Update

Construction works onsite at Girgarre Solar Farm is progressing well. Piling, which forms part of the mounting structure is progressing. Construction of foundations for power stations and substation are progressing well, and the project will be working towards completing the mounting structures in the next few months.

Light and heavy vehicles continue to transit Morrissey Road, Watson Road, Winter Road, Mason Road as goods and personnel are transported to site.

The Girgarre Solar Farm team wishes the community a wonderful holiday break and a fantastic 2024!

Creating Shared Value

Enel Green Power Australia is committed to a Creating Shared Value (CSV) approach during the construction and operation of the Project. EGP intends to work closely with the local community to enhance the economic and social conditions in the local area and proactively share benefits within the local community.

EGPA is also committed to local sourcing throughout the Project's operational and construction phases, where feasible. It is expected that the project will create significant local employment and supply opportunities during construction.
